Adjusted conversion rate calculation for increase in dividend payment

(d) Adjustment for Carh Distributions: If the Ex-Dividend Date occurs for any cash dividend or distribution by the Company to all or substantially all holders of the outstanding Common Stock, other than regular quarterly cash dividends that do not exceed \$0.025 per share (such threshold, the "Initial Dividend Threshold"), the Conversion Rate shall be adjusted based on the following formula:

$$CR_1 = CR_0 \times \frac{SP_0 - T}{SP_0 - C}$$

where

CR. = the Conversion Rate in effect immediately prior to the Open of Business on the Ex-Dividend Date for such dividend or distribution

CR, " the Conversion Rate in effect immediately after the Open of Business on the Ex-Dividend Date for such dividend or distribution;

SP₆ = the average of the Last Reported Sale Prices of the Common Stock over the ten consecutive Trading Day period ending on, and including, the Trading Day immediately preceding the Ex-Dividend Date for such dividend or distribution;

T = the Initial Dividend Threshold; provided, that if the dividend or distribution is not a regular quarterly dividend, the Initial Dividend Threshold will be deemed to be zero; and

C = the amount in cash per share that the Company pays or distributes to holders of the Common Stock

8

The Initial Dividend Threshold is subject to adjustment in a manner inversely proportional to adjustments to the Conversion Rate, other than any adjustment provided for in this Section 10.05(d).

If "SR" (as defined above) minus "C" (as defined above) is less than \$1.00, in lieu of the foregoing adjustment, each Holder shall receive, for each \$1,000 principal amount of Notes held, at the same time and upon the same terms as holders of the Common Stock, the amount of cash such Holder would have received if such Holder had overlain another of shares of the Common Stock equal to the Conversion Rate in effect on the record due for such distribution.

Any adjustment made under this Section 10.05(d) shall become effective immediately after the Open of Business on the Ex-Dividend Date for such distribution. If such distribution is not so paid or made, the Conversion Rate shall be immediately readjusted, as of the date the Board of Directors determines not to make or pay such tribution, to be the Conversion Rate that would then be in effect had the related Ex-Dividend Date not occurred.

\$23.720 Avg. stock price last 10 days prior to 11/09/16 (ex-dividend date)

× <u>\$23.72 - \$0.025</u> =
